

THE NEW JEWISH HOME

AGE LIKE A NEW YORKER

The New Jewish Home is committed to transforming eldercare for New Yorkers so they can live meaningful lives in the place they call home.

“HOME IS WHERE THE HEART IS. IT’S ALSO WHERE MY CARE MANAGER IS.”

ALL YOU NEED TO KNOW ABOUT SOLUTIONS AT HOME

New Yorkers are fiercely loyal to their neighborhoods and their little slice of New York. Our **Solutions at Home** service provides certified **Geriatric Care Managers** to help you and your family connect with the resources you need to stay safe and independent at home—now and into the future.

How It Works

Arranging care and services for an elder can be confusing and stressful. One of our professionally trained and certified **Geriatric Care Managers** will be assigned to you or your family member. A **Geriatric Care Manager** is your partner in working through the confusion, making sure you get the care and support you need to stay safe and independent—and at home, where you want to be.

The Right Team

Our **Geriatric Care Managers** are either Licensed Clinical/Masters level Social Workers or Registered Nurses and have extensive experience. While each client has an assigned Care Manager, all of our **Geriatric Care Managers** work as a team, providing additional help and support to clients as needed. As a **Solutions at Home** client, you will have the skills and expertise of the **entire Jewish Home team** behind you.

For Professionals

For attorneys, trust officers and wealth managers, **Solutions at Home** can help you arrange the healthcare and support your client needs to stay independent and safe at home. For physicians and other healthcare providers, a **Solutions at Home Geriatric Care Manager** can be your partner in a patient's home.

A typical Solutions at Home care plan might include:

- **Arranging for services of a Home Health Aide**
- **A survey of your home to identify any safety issues and coordinate modifications to address the issues**
- **Review of insurance and entitlements to assure that you are getting all the benefits to which you are entitled**
- **Arranging transportation and/or an escort to medical and other appointments**
- **Coordination with physicians and other health care providers**
- **Nutritional assessment, counseling and arrangement for meal delivery**
- **Medication management as needed**
- **Working with you or your family member to anticipate and plan for future needs**
- **Helping you and your family with relocation to a new home or a care facility**
- **Being there for you in an emergency, when a family member is not available**

These are just some of the services we can arrange and manage.

Geriatric Care Managers are on call 24/7. If your Care Manager is not available, another Care Manager will address your immediate needs and ensure that your regular Care Manager is informed.

HealthMonitor™ Services provide easy-to-use technologies installed in a client's home that can help monitor health conditions, assist with medication management and facilitate communication with the care team.

We are New Yorkers. We're here to help you live life on your own terms, wherever you call home and whatever your care needs.

Now is the right time to get started.
