New Yorkers are famously protective of their neighborhoods. They love where they live. Our care partners and social programs help you stay safe and independent in your own home and community, giving you—and your family—peace of mind.

The New Jewish Home also offers a spectrum of services, including short-term rehabilitation, and long-term skilled nursing to respond to individual needs over time.

“I’M A PEOPLE PERSON. IN OTHER WORDS: I’M A NEW YORKER.”

Across the city, we help thousands of NEW YORKERS stay on the path to health and wellness as they grow older at home.

The New Jewish Home is committed to transforming eldercare for New Yorkers so they can live meaningful lives in the place they call home.

Live WELL, be at HOME.
We work with you and your family to make sure you are supported in your rehabilitation and continued wellness. We consult with your primary care physician and other providers to coordinate your care and provide 24-hour access to our Client Service Managers should an emergency arise.

If you are in need of long-term home care, the certified home health aides from our licensed home care agency, Home Assistance Personnel Inc. (HAPI) can help you with personal care such as dressing, getting in and out of bed, going to the restroom and bathing; run errands and shop for you; prepare your meals; and remind you when to take your medication. Our home health aides, who are supervised by our nurses, have undergone rigorous background checks and training. Your care will be coordinated with your personal physician and patients on Medicare may qualify for this service.

Navigate the complex world of elder care with an expert, through Solutions at Home geriatric care managers. Arranging the right care and services can be confusing and stressful, for you and your family. Your Geriatric Care Manager will work with you and your family to create a customized plan of care and assist you in reviewing insurance, survey your home for safety issues, arrange transportation to medical appointments, coordinate with physicians and work with you to anticipate future needs. This private pay, 24 hour service gets you the support you need.

CONNECT WITH A WELCOMING COMMUNITY

New Yorkers know a thing or two about getting out—and how it enriches life. Our Adult Day Programs help you combine the independence of living at home with the security, care and social benefits of being part of an active community.

At the Social Day Care program on our Manhattan campus, you can socialize, try yoga or tai chi, and participate in art, music and discussion groups, all while receiving help with personal care, meals, and other daily activities.

Our Health Care program, offered on our Manhattan, Bronx and Westchester campuses, is a safe, caring and engaging “home-away-from-home” for those who live alone or with family and have chronic health conditions or need assistance with personal care. The program provides specialized health and wellness services, as well as structured therapeutic recreational and cultural activities.

Throughout the Night: Night Care at Sarah Neuman in Westchester provides a safe, compassionate place for people with Alzheimer’s disease or other forms of dementia to spend the night, so family members can have much-needed overnight relief.

LET US HELP YOU STAY SAFE

Technology empowers you to better understand and manage your care at home and connects you to help when you need it. We install easy-to-use telehealth equipment in your home, helping you—and us—track and manage your health and medications.

Telehealth extends the reach of our care.

Falls in the home are a major cause of hospitalization and declines in health. Learn how to prevent falls before they happen. Experts in our Falls Prevention Program will assess your health and your home environment to create an individualized plan to address conditions that might contribute to falls.
