PROGRAM Small House Communities are a progressive model of long-term care that fosters dignity, individuality and autonomy.

- Private Pay
- Medicaid
- Call for more info on other insurances accepted

The Small House communities are inspired by the innovative Green House Project™ model where elders live in real homes rather than institutional environments, all while receiving the highest standards of skilled nursing care. Life in the Small House revolves around the needs and preferences of the residents, including sleep and resting cycles, activities and meals.

Each Small House features: Mix of private and semi-private rooms with en-suite bathroom » Daily Meals cooked from scratch in the household kitchen and served family-style in a communal environment with dietician oversight and direction » Specially trained self-directed staff » An environment conducive to creating deeper, more personal relationships between staff and residents

AMENITIES 24/7 on-site nursing » Physicians and Nurse Practitioners » Physical, Occupational, Speech Therapists » Hospice and Palliative Care Advanced Disease Management » Pain Management and Wound Care » Psychologists » Dieticians » Social Workers » Registered Nurses and Certified Nursing Assistants » On-site Pharmacy and Radiology » Specialty Clinics: Dentistry, Ophthalmology, Podiatry, Neurology, Urology, Cardiology » Jintronix » Coordinated approach for Home Care through our Certified Home Health Agency » Therapeutic Recreation Activities » Religious and Spiritual Services » Multilingual staff » Kosher Style Facility » Large outdoor space and gardens on premise » Free WiFi

PROGRAM Sub-Acute Rehabilitation

Rehabilitation from: Hip, knee and shoulder fractures or joint replacements » Coronary bypass, cardiac valve replacement and other heart or vascular surgeries » Amputation and Colectomy » Gastrointestinal surgeries and treatments » Stroke » Heart Attack » Pneumonia » Chronic Obstructive Pulmonary Disease » Falls » Infectious Disease » Therapy up to 7 days a week based on assessment » Virtual Rehabilitation
