

The Gallery by the Garden at Kittay House presents the work of artists in the Bronx and tri-state area, who explore the dynamic relationship between people, nature and culture through exhibitions in the Main Gallery, Studio Gallery, and Virtual Gallery Program.

Now celebrating our sixth year, this unique gallery offers artists of the Bronx and tri-state area, the opportunity to share their work with the vibrant senior community at Kittay House. Its scope extends well beyond the beautiful Bronx campus and includes family, friends and associates from all over the globe.

The Kittay House Senior Apartment Community is as rich and varied as the city itself. Kittay tenants bring their unique backgrounds and interests, and develop new interests through the wealth of activities offered.

The Gallery by the Garden is a vital part of this thriving community. Exhibiting artists have the opportunity to showcase their work to a broad audience. Many notable guests visit Kittay. Our Curator Victoria Marin-Harrison comes to Kittay House with a distinguished background in the Arts and Entertainment Industry, is passionate about her work, and the continued development of our Gallery by the Garden, as it grows.

At the openings, the artists share valuable insights into their work with the Kittay extended community. They are also given the time to further elaborate on their work and creative process via lively Kittay Resident Artist Panel discussions -which have been very well received.

The gallery exhibits have also at times received media coverage. Artists have the opportunity to further promote and sell their work, and Kittay House takes only a minimal commission.

The gallery space is clean, climate-controlled and secure with 24 hour surveillance.

Kittay Gallery by the Garden Spotlight
